

Set Up Instructions

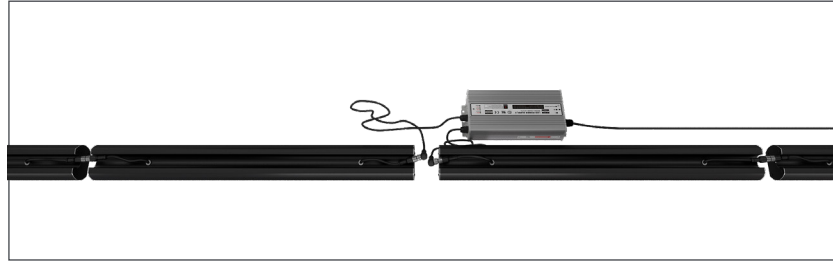

Step 1: Unpack Light Bars and transformer.

Step 2: Connect Light Bars together.

Step 3: Connect end of each Light Bar to the transformer/controller.

Step 4: Plug the transformer into a standard 120V outlet.

Step 5: Download the App (Method 1)

- a. Scan the QR code on the back of transformer.
- b. Choose the first option for Apple/iOS devices.
- c. Choose the fourth option for Android devices.

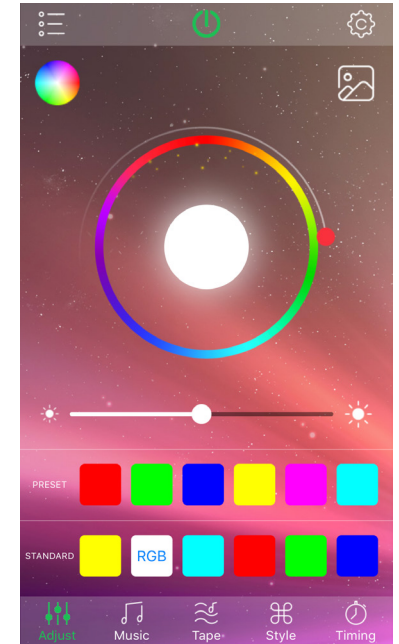

Step 6: Download the App (Method 2)

- a. Search your App Store for **Happy Lighting**.
- b. Install the App.

Step 7: Ensure your phone has Bluetooth turned on so that it can connect to the transformer/controller.

RGB LIGHT BARS

HAPPY LIGHTING APP

Adjust: Mix RGB colors to create desired color.

Music: Play song and have lights react to the beat.

Tape: Activate mic to sync lights with the ambient environment.

Style: Set lighting transitions and speed for graduations, pulse, rainbow or strobe.

Timing: Set times and actions to control Light Bars with action.
